JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Week ended June 4. Bills of health issued, 2. Vessels fumigated, 2. Members of crews inspected, 120. Passengers inspected, 25 (cabin 14, steerage 11). Pieces of baggage fumigated, 37; inspected and passed, 18.

The 2 vessels fumigated were the steamships *Ecuador*, sailing May 29 for the Canal Zone, and *Nicarie*, sailing June 2 for San Francisco via Central American ports. The *Nicarie* had a history of a case of plague in a sailor shipped from shore at Iquique, Chile, May 12. Symptoms of plague developed May 19. The vessel returned to Callao, Peru, for disinfection and removal of case. On arrival at Guayaquil the vessel was again disinfected. Before departure partial disinfection was performed and inspection made of crew and passengers before sailing.

GUATEMALA.

Acting Assistant Surgeon Ames reports:

LIVINGSTON, Fruit Port.
